Do one thing well

Takeaway 2/2

Use a universal interface

Agenda

Coming soon..

Software Distribution

The delivery of pre-configured software to end-users.

A lot of software comes with a "package manager":

- Linux Distributions
    - Debian, Ubuntu, Gentoo, Arch Linux, Alpine, . . .
- Programming Environments
    - Eclipse, Visual Studio, . . .
    - Python, Go, Haskell Platform, . . .

A lot of operating systems come with an "app store":

- iOS, Android, Windows 10 Mobile, . . .

Software Distribution Strategies

- Source-code form.
  - Portage on Gentoo.
- Object or executable form.
  - Aptitude on Ubuntu.

Reading Material

Coming soon..
